## TITLE 7—AGRICULTURE

### Chapter VIII—Production and Marketing Administration (Sugar Branch)

[General Sugar Reg., Series 3, No. 2]

#### PART 801—GENERAL SUGAR REGULATIONS ADMINISTRATION OF SUGAR QUOTAS

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948 (Pub. Law 388, 80th Cong.) and the Administrative Procedure Act (80 Stat. 237), these regulations are hereby made, prescribed, and published, to be in force and effect until amended or superseded by regulations hereafter made.

§ 801.0 *Basis and purpose.* The regulations contained in §§ 801.1 to 801.3, inclusive, 801.10 to 801.15, inclusive, and 801.41 to 801.45, inclusive, are issued pursuant to the Sugar Act of 1948 and deal generally with the administration of the sugar quota system provided by that act. The purpose of the regulations in §§ 801.1 to 801.3, inclusive, is to provide for effective quota control by requiring sugar produced outside the continental United States to be entered through customs ports of entry. The purpose of the regulations in §§ 801.10 to 801.15, inclusive, is to permit sugar or liquid sugar to be brought or imported into the continental United States for reexport under a bond conditioned upon the handling of such sugar without interference with the effective administration of sugar quotas. The purpose of the regulations in §§ 801.41 to 801.45, inclusive, is to permit restricted transfers of sugar produced from sugarcane and sugar beets grown in the continental United States in a manner that will utilize effectively sugar processing and storage facilities and at the same time hold the distribution of such sugar in the continental United States within the prescribed area quota.

These regulations are substantially identical with regulations issued under the Sugar Act of 1937 (50 Stat. 903; 7 U. S. C. 1100) and will replace such regulations for purposes of administration of quotas under the Sugar Act of 1948.

Prior to the issuance of these regulations, notice was given (12 F. R. 8207) that the Secretary was considering the revision and reissuance of similar regulations issued under the Sugar Act of 1937 and that any interested person might express his views with respect thereto within 15 days after the publication of such notice in the **FEDERAL REGISTER**. No such written expression of views was received.

The Sugar Act of 1948 requires the Secretary of Agriculture to establish sugar quotas thereunder during the first ten days of 1948. The regulations set forth in subparts A, B, and C are essential to the effective administration of sugar quotas under that act. To make these regulations effective as soon as quotas are established and at the same time comply with the 30-day effective date requirement of the Administrative

Procedure Act would have required their issuance, in part, under authority contained in Title II of the Sugar Act of 1937, which was suspended by Presidential Proclamation from April 1942 until November 28, 1947 (12 F. R. 8011). Therefore, it was not possible to comply with the notice and public rule making procedure requirements and the 30-day effective date requirement of the Administrative Procedure Act prior to the date these regulations should be effective. Accordingly, it is hereby found that compliance with the 30-day effective date requirement of the Administrative Procedure Act is impracticable and contrary to the public interest and, consequently, these regulations shall be effective when published in the FEDERAL REGISTER.

§ 801.2 *Entry of sugar into the continental United States.* (a) All persons are hereby forbidden from bringing or importing into the continental United States sugar or liquid sugar produced in any area outside of continental United States, except through customs ports of entry. The collectors of customs shall not permit any such sugar or liquid sugar to enter continental United States unless and until (1) there shall be furnished proof as to the following matters satisfactory to the collector of customs (an affidavit in duplicate (Form SU-3) subscribed and sworn to by the consignee as to such matters may be accepted by the collector of customs as satisfactory proof thereof): (i) The area in which such sugar or liquid sugar was produced, (ii) the port of entry, (iii) the name of the vessel and the port and date of departure, (iv) the names of the consignor, consignee, shipper, and owner, (v) the kind or type and identification marks of such sugar or liquid sugar, (vi) the purpose for which such sugar or liquid sugar is brought into continental United States, to wit, whether such sugar or liquid sugar is for consumption in or export from continental United States, either in the state in which it is being brought or imported into continental United States or after it has been further refined or otherwise improved in quality, (vii) the allotment, if any, under which such sugar or liquid sugar is being brought or imported into continental United States, and (viii) the polarization and the weight of such sugar and the total sugar content and quantity of such liquid sugar; and (2) the Secretary certifies to the collector of customs that such sugar or liquid sugar is within the applicable quota or allotment established by the Secretary for the area in which such sugar was produced: *Provided, however,* That, except as specified below, such certification shall not be required as to any quota or portion thereof until the Director or Acting Director of the Sugar Branch, Production and Marketing Administration, of the Department determines that such quota or portion thereof is filled to the extent that certification is required to maintain effective quota control and after publication of such determination in the FEDERAL REGISTER such certification shall be required for the remainder of the applicable calendar year. Such certification shall be required at all times with respect to (i) sugar or liquid sugar imported from any foreign country other than Cuba and the Republic of the Philippines, (ii) sugar or liquid sugar from the Virgin Islands, (iii) direct-consumption sugar from Hawaii or from Puerto Rico, (iv) any sugar or liquid sugar imported or brought into the continental United States under the exemptions specified in section 212 of the act, (v) any liquid sugar which is imported or brought into the continental

(b) Request for the certification described in paragraph (a) of this section shall be made in writing to the Director of the Sugar Branch, Production and Marketing Administration, Department of Agriculture, Washington 25, D. Such certification shall not be issued more than 5 days prior to the stated date of departure of the vessel on which the sugar or liquid sugar is to be shipped. The certification shall be non-transferable, shall be valid for the number of days specified thereon but not exceeding 60 days (subject to extension by the Secretary for good cause), and shall be subject to cancellation only if the Secretary determines that it has been mistakenly issued, that the person requesting it has made a material misrepresentation in connection therewith, or that the person to whom it has been issued will be unable to bring or import the sugar or liquid sugar into the continental United States during the period specified thereon. No certification shall be issued when the quantity of sugar or liquid sugar permitted to enter the continental United States for consumption therein, together with the quantity of sugar or liquid sugar covered by valid certifications issued hereunder, equals the area quota or applicable portion thereof.

(c) Upon notification by the Secretary that sugar or liquid sugar produced in any particular area outside of continental United States has, during any calendar year, been brought into continental United States for consumption therein in amounts totaling the amount of the quota established by the Secretary under the act for that area for such calendar year, collectors of customs shall permit no further sugar or liquid sugar from such area to enter continental United States during such calendar year, except as authorized by the Secretary and in accordance with the terms and conditions of such authorization.

fore entered as a part of the quota from the same producing area is delivered to any collector of customs in the place and stead thereof and in substitution therefor, to be held in customs control until thereafter authorized by the Secretary to be released therefrom: *Provided, however*, That no such authorization will be issued by the Secretary unless and until:

(1) An application for such authorization has been filed with the Secretary setting forth the reason for requesting such substitution; (2) there shall first be shown to his satisfaction, by such proof as he may require, that the sugar or liquid sugar tendered in substitution and the sugar or liquid sugar sought to be entered (i) were produced in and brought from the same area, (ii) have the equivalent weight translated into terms of pounds of sugar polarizing 96°, or, in the case of liquid sugar, the equivalent quantity translated into terms of 72 percent total sugar content, and (iii) are owned or contracted for by the same person; (3) the owner of the sugar or liquid sugar tendered in substitution shall agree in writing that such sugar or liquid sugar shall be treated in the same manner and shall be subject to the same rules and regulations as the sugar or liquid sugar for which it is tendered in substitution would have been treated and subjected if substitution therefor were not permitted; and (4) the owner of the sugar or liquid sugar tendered in substitution shall agree in writing to be responsible for all storage charges and other expenses in connection with the retention of the substituted sugar or liquid sugar in customs control until the time of release of such sugars against an applicable quota; and, in the event that such sugars are not so withdrawn when notification is given by the Secretary, the sugars may be treated as abandoned to the Government and may be sold at such time and under such conditions as the Secretary shall determine will best protect the interests of the Government and the owner, subject to payment to the said owner of the surplus proceeds, if any, after the payment of all charges and other expenses. § 801.13 *Credits upon exportation of sugar or liquid sugar.* If any sugar or liquid sugar imported into continental United States from any country is charged at the time of importation against any quota and such sugar or liquid sugar in original or processed form, or an equivalent amount of sugar or liquid sugar, is exported from continental United States and not used for consumption therein, or such sugar or liquid sugar is exported with benefit of drawback, or a claim or claims for drawback is or are allowed upon the basis of a designation of the imported sugar or liquid sugar, the amount of sugar or liquid sugar so exported shall, as of the date of exportation, be credited to the current quota unless such exportation is in compliance with a condition of a bond issued pursuant to § 801.11 (b).

The act requires that the Secretary of Agriculture make such determinations and establish such quotas for the calendar year 1948 during the first 10 days thereof. The determinations of the sugar consumption requirements have been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government. The purpose of such determinations is to estimate the amounts of sugar which will be needed to meet the requirements of consumers in the Territory of Hawaii and in Puerto Rico for the calendar year 1948 and thereby provide a basis for the establishment of sugar quotas for such year for local consumption therein pursuant to section 203 of the act.

Prior to the issuance of §§ 821.01 to 821.04, inclusive, notice was given (12 F. R. 8209) that the Secretary of Agriculture was preparing, among other things, to determine the sugar consumption requirements and quotas for the calendar year 1948 for local consumption in Hawaii and in Puerto Rico and that any interested person might present any data, views, or arguments with respect thereto in writing not later than December 16, 1947. Due consideration has been given to the data, views, and arguments submitted, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the act requires that the Secretary of Agriculture determine sugar consumption requirements and establish quotas for local consumption in Hawaii and in Puerto Rico for the calendar year 1948 during the first 10 days of 1948, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, §§ 821.01 to 821.04, inclusive, shall be effective when published in the FEDERAL REGISTER.

§ 821.02 *Consumption requirements and quotas—(a) Original consumption requirements.* It is hereby determined, pursuant to section 203 of the act, that the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii for the calendar year 1948 is 45,500 short tons of sugar, raw value, and that the amount of sugar needed to meet the requirements of consumers in Puerto Rico for the calendar year 1948 is 120,000 short tons, raw value.

(b) *Original local consumption quotas.* There are hereby established, pursuant to section 203 of the act, for local consumption in the Territory of Hawaii and in Puerto Rico, for the calendar year 1948, the following quotas:

Area:	Quotas in terms of short tons, raw value
Hawaii .....	45,500
Puerto Rico .....	120,000

§ 821.03 *Restrictions on marketing.* For the calendar year 1948, all persons are hereby forbidden, pursuant to section

209 of the act, from marketing in the Territory of Hawaii or in Puerto Rico, for consumption therein, any sugar or liquid sugar after the quota for the area for the calendar year 1948 has been filled.

§ 821.04 *Specific charges against quota.* Sugar or liquid sugar marketed in the Territory of Hawaii or in Puerto Rico, for consumption therein, after December 31, 1947, but prior to the effective date of §§ 821.01 to 821.04 inclusive, shall be charged against the applicable quota for such area.

#### Statement of Bases and Considerations

Section 203 of the act provides as follows:

In accordance with such provisions of Section 201 as he deems applicable, the Secretary shall also determine the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii, and in Puerto Rico, and shall establish quotas for the amounts of sugar which may be marketed for local consumption in such areas equal to the amounts determined to be needed to meet the requirements of consumers therein.

It has been determined that those provisions of section 201 of the act which shall apply to the determination of the amounts of sugar needed to meet the requirements of consumers in Hawaii and in Puerto Rico relate to (1) the amounts of sugar distributed for local consumption in Hawaii and in Puerto Rico during the twelve-month period ending October 31, 1947, and (2) changes in consumption because of changes in population and demand conditions. The amounts of sugar distributed for consumption in Hawaii and Puerto Rico during such twelve-month period were 38,250 short tons of sugar, raw value, and 112,000 short tons of sugar, raw value, respectively. The increases in population and the continued high level of income for these areas indicate that an additional allowance of 7,250 short tons of sugar, raw value, should be made for Hawaii, and an additional allowance of 8,000 short tons of sugar, raw value, should be made for Puerto Rico. The total amounts thus determined to meet the needs of the consumers in the respective areas coincide with the recommendations made by interested persons in those areas.

As provided in section 203 of the act, the quotas for local consumption in Hawaii and in Puerto Rico have been established in amounts equal to the estimates of consumers' needs in the respective areas.

#### PART 821—SUGAR QUOTAS

##### DETERMINATION OF AMOUNT OF SUGAR NEEDED TO MEET REQUIREMENTS OF CONSUMERS IN CONTINENTAL UNITED STATES FOR 1948

§ 821.0 *Basis and purpose.* The determination set forth below is made pur-

suant to section 201 of the Sugar Act of 1948. The act requires that the Secretary of Agriculture make such determination for the calendar year 1948 during the first ten days thereof. The determination has been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government. The purpose of such determination is to estimate the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948 and thereby provide a basis for the establishment of sugar quotas for such year pursuant to section 202 of the act.

Prior to the issuance of this determination, notice was given (12 F. R. 8209) that the Secretary of Agriculture was preparing, among other things, to determine the sugar consumption requirements for the calendar year 1948 and that any interested person might present any data, arguments or views with respect thereto at a public hearing to be held in Washington, D. C., on December 16, 1947. In addition, the notice stated that any interested person might present any data, views, or arguments with respect thereto in writing not later than December 16, 1947. In making this determination, due consideration has been given to the data, views, and arguments expressed at the hearing held on December 16, 1947, and the data, views, and arguments submitted in writing on or before that date, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the Sugar Act of 1948 requires that the Secretary of Agriculture determine sugar consumption requirements and establish sugar quotas for the calendar year 1948 during the first ten days of 1948, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, this determination shall be effective when published in the FEDERAL REGISTER.

**§ 821.1 Determination of the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948.** The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948 is hereby determined to be 7,800,000 short tons, raw value.

**Statement of Bases and Consideration**  
Section 201 of the Sugar Act of 1948 reads as follows:

The Secretary shall determine for each calendar year, beginning with the calendar year 1948, the amount of sugar needed to meet the requirements of consumers in the continental United States; such determinations shall be made during the month of December in each year for the succeeding calendar year (in the case of the calendar year 1948, during the first ten days thereof) and at such other times during such calendar year as the Secretary may deem necessary to meet such requirements. In making such determinations the Secretary shall use as a basis the quantity of direct-consumption sugar distributed for consumption, as indicated by official statistics of the Department of Agriculture, during the twelve-month

period ending October 31 next preceding the calendar year for which the determination is being made, and shall make allowances for a deficiency or surplus in inventories of sugar, and for changes in consumption because of changes in population and demand conditions, as computed from statistics published by agencies of the Federal Government; and, in order that such determinations shall be made so as to protect the welfare of consumers and of those engaged in the domestic sugar industry by providing such supply of sugar as will be consumed at prices which will not be excessive to consumers and which will fairly and equitably maintain and protect the welfare of the domestic sugar industry, the Secretary, in making any such determination, in addition to the consumption, inventory, population, and demand factors above specified and the level and trend of consumer purchasing power, shall take into consideration the relationship between the prices at wholesale for refined sugar that would result from such determination and the general cost of living in the United States as compared with the relationship between prices at wholesale for refined sugar and the general cost of living in the United States obtaining during 1947 prior to the termination of price control of sugar as indicated by the Consumers' Price Index as published by the Bureau of Labor Statistics of the Department of Labor.

Pursuant to the provisions of this section the determination of the sugar consumption requirements has been based upon the following:

1. *Quantity of direct-consumption sugar distributed for consumption during the twelve-months' period ending October 31 next preceding the calendar year for which the determination is being made.* For the twelve months ended October 31, 1947, there were distributed 7,431,000 short tons, raw value, of direct-consumption sugars.

2. *Allowances for a deficiency or surplus in inventories of sugar.* Estimated visible inventories (inventories in the hands of refiners and importers—excluding beet and mainland cane sugars which will be marketed against quotas) on December 31, 1947, were approximately 635,000 short tons, raw value. The average December 31 stocks during the years 1935 to 1940, excluding 1939 when quotas were in suspense during the late months of the year and excluding also so-called "over-quota" or "in-bond" stocks for the other years, were about 500,000 tons. Thus, there appears to be a surplus of about 135,000 tons in visible inventories.

In the case of invisible inventories (those in the hands of industrial users, secondary distributors and consumers) the only data available to the Department show inventories in the hands of 1,037 manufacturers, wholesalers and retailers, accounting for about 48 percent of total deliveries by primary distributors to have been about 237,000 short tons, raw value on September 30, 1947. The level of deliveries during the fourth quarter indicates that this level was not increased and probably was decreased by December 31. A comparison with invisible inventories in the years 1938 to 1940 in the hands of a closely comparable segment of manufacturers, wholesalers and retailers indicates that total invisible inventories are deficient by about 250,000 tons.

Although the net deficiency in visible and invisible stocks would appear from

the foregoing to be about 115,000 tons, it is recognized that this figure makes no allowance for inventories in the hands of household consumers. The pattern of distribution following the discontinuance of rationing in June of 1947 indicates that consumers increased their stocks substantially and probably still held on December 31 a greater than normal inventory. Accordingly, the indicated inventory deficiency of 115,000 tons has been further adjusted and a net allowance of 50,000 short tons, raw value, has been made for inventory deficiency in reaching the determination of consumption requirements.

3. *Allowances for changes in consumption because of changes in population and demand conditions including level and trend of purchasing power.* The population of the continental United States is estimated by the Bureau of the Census to have been 144,002,000 on July 1, 1947 and it is expected to increase by about 1.3 percent by July 1, 1948.

Present levels of income as reflected in various indices published by Government agencies are higher than the average for the 12 months ended October 31, 1947. For example, the index of industrial workers' incomes published by the Bureau of Agricultural Economics based on data obtained from the Bureau of Labor Statistics averaged 315 for such 12 months while the index for October 1947 was 335. However, increases in the Consumers' Price Index from 157 for the 12-months' period to 164 for the month of October appears to leave purchasing power only slightly increased. Another offsetting factor is that the price of sugar is about 2.5 percent higher than the average for such 12-months' period.

The rationing of sugar restricted consumption for household and institutional use during seven months and for industrial use during nine months of the 12 months ended October 31, 1947. The resulting deficiency was partly counterbalanced by exceedingly heavy distribution from June through October. Distribution from the termination of all rationing to the end of 1947, adjusted to an annual basis by applying the prewar percentage of annual distribution in the same months, provides a measure of the effect of rationing on demand.

A total additional allowance is made for changes in population and demand conditions in the amount of 319,000 short tons, raw value.

4. *The relationship between prices at wholesale for refined sugar and the general cost of living in the United States obtaining during 1947 prior to the termination of price control of sugar.* During the first 10 months of 1947 the basis price for refined cane sugar at wholesale was 8.26¢ per pound. During the same period the Consumers' Price Index averaged 157.8. On the basis of available information it would appear that maintenance of a ratio of price to cost-of-living in 1948 equivalent to the ratio prevailing during the first ten months of 1947 would require some increase over the present price of sugar. However, after careful consideration of all factors involved, it is concluded that a further adjustment in the indicated consumption requirement is not necessary to main-

tain the objective of "prices which will not be excessive to consumers and which will fairly and equitably maintain and protect the welfare of the domestic sugar industry."

It is hereby found and concluded that the determination made above will provide a supply of sugar which will be consumed at prices which will not be excessive to consumers and which will fairly and equitably maintain and protect the Welfare of the domestic sugar industry. (Secs. 201 and 403 of Pub. Law 388, 80th Cong.)

AUTHORITY: §§ 821.2 to 821.11, inclusive, issued under Title II and section 403 of Public Law 388, 80th Congress.

§ 821.2 *Basis and purpose.* The sugar quotas set forth below have been established pursuant to section 202 of the Sugar Act of 1948 (hereinafter called the "Act") on the basis of the 7,800,000 short tons of sugar, raw value, determined by the Secretary of Agriculture as the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1948. The act requires that the Secretary of Agriculture establish sugar quotas for the calendar year 1948 during the first 10 days thereof. The purpose of §§ 821.2 to 821.11, inclusive, is to establish quotas representing the amount of sugar which each producing area may supply the continental United States market during the calendar year 1948.

Prior to the issuance of §§ 821.2 to 821.11, inclusive, notice was given (12

F. R. 8209) that the Secretary of Agriculture was preparing, among other things, to establish sugar quotas for the calendar year 1948 and to determine whether any domestic area, the Republic of the Philippines, or Cuba, would be unable to market the full quota for such area in 1948 and to reallocate any quota deficit so determined. In accordance with the Administrative Procedure Act (60 Stat. 237), due consideration has been given to the data, views, and arguments submitted in writing by interested persons and to the data, views, and arguments expressed at the public hearing held on December 16, 1947, in Washington, D. C., for the purpose of affording interested persons an opportunity to express their views with respect to the establishment of sugar quotas for the calendar year 1948.

Since the act requires that the Secretary of Agriculture establish sugar quotas for the calendar year 1948 during the first 10 days thereof, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, §§ 821.2 to 821.11, inclusive, shall be effective when published in the FEDERAL REGISTER.

§ 821.9 *Restrictions on marketing and shipment.* (a) For the calendar year 1948, all persons are hereby prohibited, pursuant to section 209 of the said act, from bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands, or foreign countries, (1) any sugar or liquid sugar after the applicable quota, or the proration of any such quota, has been filled, or (2) any direct-consumption sugar after the direct-consumption portion of any such quota or proration thereof has been filled.

(b) For the calendar year 1948, all persons are hereby prohibited from shipping, transporting, or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic-beet-sugar area or the mainland cane-sugar area after the quota for such area has been filled.

§ 821.10 *Specific charges against quotas or prorations thereof.* (a) Sugar or liquid sugar brought or imported into the continental United States, for consumption therein, after December 31, 1947, but prior to the effective date of §§ 821.2

to 821.11, inclusive, shall be charged against the applicable quota or proration thereof for the area or country of origin of such sugar or liquid sugar.

(b) Sugar or liquid sugar produced from sugar beets or sugarcane grown in the continental United States and marketed, for consumption therein, after December 31, 1947, but prior to the effective date of §§ 821.2 to 821.11, inclusive, shall be charged against the applicable quota for the area of production of such sugar or liquid sugar.

§ 821.11 *Inapplicability of quota regulations.* Sections 821.2 to 821.10, inclusive, shall not apply to (a) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1948; (b) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1948 for religious, sacramental, educational, or experimental purposes; (c) liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in individual sealed containers not in excess of one and one-tenth gallons each; or (d) any sugar or liquid sugar imported, brought into, or produced or manufactured in the United States for the distillation of alcohol, or for livestock feed, or for the production of livestock feed.

*Statement of Bases and Considerations*

A. *Original quotas.* The original quotas established for domestic areas are in amounts specified in the act. Section 202 of the act provides that the original quota for the Republic of the Philippines shall be 952,000 short tons "as specified in section 211 of the Philippine Trade Act of 1946." Since quotas under the Sugar Act are established in terms of "short tons, raw value," the conversion of 952,000 short tons, commercial weight, results in a quota of 982,000 short tons of sugar, raw value. The average polarization of Philippine sugar marketed in the continental United States from 1937 to 1941, inclusive, has been used in making such conversion. The original quotas for other foreign countries have been established by applying the statutory percentages to the difference between the consumption estimate and the sum of the quotas established for domestic areas and the Republic of the Philippines. The quota for foreign countries other than Cuba and the Republic of the Philippines has been prorated on the basis of prorations made for 1937, as provided by the act. The amounts of the quotas or prorations which may be filled by direct-consumption sugar are within the limits specified in the act. The liquid sugar quotas equal in amounts those specified in section 208 of the act.

B. *Area deficits*—1. *Hawaii.* Based on official data, it has been estimated that there will be produced in Hawaii during the calendar year 1948 a total of 945,500 short tons of sugar, raw value. Since 45,500 short tons, raw value, of this production will be required for local con-

sumption in Hawaii, 900,000 short tons of Hawaiian sugar, raw value, will be available for marketing in the continental United States during the calendar year. As the original quota for Hawaii, pursuant to section 202 of the act, is 1,052,000 short tons of sugar, raw value, it has been determined that Hawaii will be unable to market 152,000 short tons of sugar, raw value, of its original quota. Therefore, 152,000 short tons of sugar, raw value, have been prorated, pursuant to section 204 of the act, among the other domestic producing areas and Cuba.

2. *Republic of the Philippines.* Official estimates indicate that the total production in the Philippines during the calendar year 1948 will equal approximately 430,000 short tons of sugar and that approximately 150,000 short tons of this amount will be needed for local consumption, thus leaving a balance of 280,000 short tons, commercial weight, available for marketing in the continental United States during 1948. This amount converted to short tons, raw value, equals 290,000 short tons of sugar, raw value. Therefore, it has been determined that the Republic of the Philippines will be unable by an amount of 692,000 short tons of sugar, raw value, to market the quota established for that area for the calendar year 1948. Accordingly, 692,000 short tons of sugar, raw value, have been prorated to Cuba, and foreign countries other than Cuba and the Republic of the Philippines on the basis of 95 percent to Cuba and 5 percent to such other foreign countries, as required by the act. This additional quota for foreign countries other than Cuba and the Republic of the Philippines has been prorated on the same basis as the original quota for these countries was prorated.

## NOTICES

## FEDERAL POWER COMMISSION

[Docket No. G-981]

NORTHERN NATURAL GAS CO.

NOTICE OF APPLICATION

JANUARY 5, 1948.

Notice is hereby given that on December 15, 1947, an application was filed with the Federal Power Commission by Northern Natural Gas Co. (Applicant), a Delaware corporation with its principal place of business at Omaha, Nebraska, for a certificate of public convenience and necessity authorizing the construction, acquisition and operation of certain natural-gas facilities, and for permission and approval to abandon and sell certain other natural-gas facilities, subject to the jurisdiction of the Commission, all pursuant to section 7 of the Natural Gas Act, as amended, which facilities are more particularly described as follows:

1. Construction and operation of a town border station to be located on Applicant's 4½-inch pipe line in the Southeast Quarter of Section 3, Township 13 North, Range 13 East, Sarpy County, Nebraska, for the sale of gas to Peoples Natural Gas Company (Peoples) for resale to Offutt Field (formerly known as Fort Crook Military Reservation) and in the Village of Ft. Crook, Nebraska.

2. Construction and operation of a town border station to be located at or near the north end of the boundary between Sections 2 and 3, Township 13 North, Range 13 East, Sarpy County, Nebraska, at the terminus of the 4½-inch pipe line which Applicant proposes to acquire by purchase from Peoples Natural Gas Company, for the sale of gas to Peoples for resale to Offutt Field and in the Airview and Martinview (housing) Subdivisions.

3. Acquisition by Applicant from Peoples and the operation of approximately 1,500 feet of the latter's existing 4½-inch pipe line extending from the end of Applicant's 4½-inch pipe line at a point

in the Northeast Quarter (NE ¼) of Section 3, Township 13 North, Range 13 East, to the proposed new town border station referred to in paragraph 2 above.

4. Construction and operation of a town border station for delivery and sale of gas to Peoples for resale to Boys Town and the suburban area west of Omaha, Nebraska. This station will be located on an existing 6½-inch line in the Northeast Quarter (NE ¼) of Section 34, Township 15 North, Range 12 East, Douglas County, Nebraska.

(5) Abandonment by Applicant and sale to Peoples of: (a) Applicant's existing Offutt Field measuring and regulating station located in the Southwest Quarter (SW ¼) of Section 2, Township 13 North, Range 13 East, Sarpy County, Nebraska; and (b) approximately 4,196 feet of 4½-inch pipe line beginning at the proposed new town border station referred to in paragraph (1) above and extending easterly to a point in the Southwest Quarter (SW ¼) of Section 2, Township 13 North, Range 13 East, Sarpy County, Nebraska, thence northerly to the existing Offutt Field measuring station referred to above.

(6) Abandonment by Applicant and sale to Peoples of the existing measuring and regulating station at Boys Town, Nebraska, together with the 6½ and 4½-inch pipe lines and appurtenances thereto which extend from the proposed site of the new measuring station described in paragraph 4 to the existing measuring station at Boys Town hereinafter mentioned.

Applicant states that the purposes of the proposed construction, operation, acquisition, abandonment, and sale of facilities described in the application are to provide means of measuring the volumes of gas at central delivery points instead of at meters on the consumers' premises. As a result of the proposed abandonment and sale of facilities to Peoples Natural Gas Company and the proposed acquisition by Applicant from

that company of facilities described above, Peoples Natural Gas Company will take over the direct distribution and sale of gas to Boys Town and to customers in the residential area and subdivisions of Loveland, West Pacific Hills, Hillsboro, Ridgewood, Westchester and other unnamed communities in the Omaha suburban area, and give Applicant both measurement and delivery points at the end of its branch line in order to simplify gas accounting and billing procedure.

Applicant further states that, because the terrain where the line to the north town border station in the Offutt Field area takes off from its 18-inch pipe line is almost inaccessible for chart changings during some seasons, it is desirable to have the station closer to the paved road on higher ground.

Applicant further states that these transactions proposed between it and its wholly owned subsidiary, Peoples Natural Gas Company, involve a net cost to Peoples of \$41,950, consisting of facilities to be abandoned and sold by Applicant at \$43,561 and facilities to be sold to Applicant at \$1,611. Applicant's net decrease in book cost of facilities is an estimated \$36,981, consisting of \$4,969 in new facilities to be constructed and facilities to be purchased from Peoples Natural Gas Company at \$1,611, and facilities to be abandoned and sold at \$43,561. The purchase and sale costs will be further adjusted for accrued depreciation from January 1, 1948, to date of transaction.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of Rule 37 of the Commission's rules of practice and procedure (18 CFR 1.37) and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing,

together with the reasons for such request.

The application of Northern Natural Gas Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of Rule 8 or 10, whichever is applicable, of the rules of practice and procedure (as amended on June 16, 1947) (18 CFR 1.8 or 1.10).

### SECURITIES AND EXCHANGE COMMISSION

[File Nos. 59-12, 70-1134, 70-1135]

AMERICAN POWER &amp; LIGHT CO. ET AL.

ORDER GRANTING EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 30th day of December A. D. 1947.

In the matter of American Power & Light Company, Texas Utilities Company, File No. 70-1134; American Power & Light Company, Texas Utilities Company, and Electric Power & Light Corporation, File No. 70-1135; Electric Bond and Share Company, American Power & Light Company, National Power & Light Company et al., Respondents, File No. 59-12.

The Commission having heretofore, on October 24, 1945, entered an order granting and permitting to become effective certain joint applications and declarations of American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company ("Bond and Share"), also a registered holding company, and American's wholly owned subsidiary, Texas Utilities Company, subject to the terms and conditions of an agreement and stipulation set forth in full in the findings and opinion of the Commission of that date, which stipulation and agreement, among other things, provides that American will within one year from the date of the said order (unless the Commission extends such time) sever its relations with Texas Utilities Company and the subsidiaries of that company, and irrevocably and finally dispose of all of its interest, direct or indirect, therein, either by disposition among American's stockholders, or by a sale, or otherwise in a manner found by the Commission to be appropriate; and said stipulation and agreement further containing specific provisions relating to the carrying out by American of said commitment and the enforcement thereof by the Commission as more fully set forth at length therein; and

American and Bond and Share having, on September 6, 1946, filed an application with the Commission pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 for approval of a plan for retirement of American's outstanding preferred stock through exchange of certain portfolio securities of American or by specified cash payments, which plan, American stated, was also designed, among other things, to result in the disposition by American of its in-

terest in Texas Utilities Company and the subsidiaries of that company; and

American having on November 7, 1947 requested the Commission to suspend its further consideration of the plan filed on September 6, 1946 on the ground that said plan does not appear to be feasible at the present time; American having stated that it is proceeding to formulate a new over-all plan to deal with American's problems under the act in light of present conditions; and, that such new plan will be filed as soon as the studies on which the plan is to be based can be completed; and

The Commission having, on January 24, 1947, and on July 2, 1947, extended the time within which American shall comply with said order of October 24, 1945 until June 30, 1947, and to December 31, 1947, respectively, subject to certain conditions set forth in said orders; and

American having, on November 7, 1947, filed an application requesting the Commission further to extend the time within which American shall be required to dispose of its interest in Texas Utilities Company, all in accordance with the foregoing statements, until further order of the Commission, to be entered after reasonable notice to American; and

American having represented in its application of November 7, 1947 that the plan being prepared by American will propose distribution of its interests in Texas Utilities Company to its security holders at the earliest possible date and as a part of a comprehensive program relating to all of American's assets; and

It appearing to the Commission that it is not appropriate in the public interest and in the interest of investors and consumers that the time within which American be required to comply with the aforementioned order of October 24, 1945 be extended as requested but that an extension of not more than six months from December 31, 1947, is appropriate at this time;

It is ordered, That the time within which American shall comply with said order of October 24, 1945 and the stipulation and agreement entered into by American is hereby extended until June 30, 1948, subject, however, to a reservation of jurisdiction to terminate such extension, after notice and opportunity for hearing, prior to June 30, 1948.

DALLAS POWER & LIGHT CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 30th day of December A. D. 1947.

Notice is hereby given that Dallas Power & Light Company ("Dallas"), an electric utility subsidiary of Texas Utilities Company, a registered holding company subsidiary of American Power & Light Company, itself a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, has filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 (a) and 7 of the act and Rules U-62 and U-65 of the rules and regulations promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to said application-declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

Dallas contemplates the sale of additional common stock and certain unsecured indebtedness in order to acquire funds stated to be necessary to finance its construction program. Dallas states that in order to facilitate the sale of said common stock and unsecured indebtedness, it proposes to amend its charter in the following respects:

1. To modify the restriction requiring a two-thirds vote of the  $4\frac{1}{2}\%$  preferred stock in order to create or authorize new stock ranking prior to or on a parity with the  $4\frac{1}{2}\%$  preferred stock so that such consent will be necessary only with respect to new stock ranking prior to the  $4\frac{1}{2}\%$  preferred stock.

2. To remove the present restriction requiring a majority vote of the  $4\frac{1}{2}\%$  preferred stock in order to increase the total authorized amount of  $4\frac{1}{2}\%$  preferred stock.

3. To modify the present provision in the charter restricting the issuance of unsecured debt. The charter now forbids the issuance or assumption of unsecured indebtedness without the consent of the outstanding preferred stock in any amount exceeding 10% of the sum of the company's secured indebtedness, capital stock, and surplus. Dallas proposes to modify this provision so as to exclude from the 10% computation described above unsecured indebtedness of a maturity in excess of ten years, with a further limitation that when unsecured indebtedness having at the time a maturity of ten years or less exceeds 10% of secured indebtedness, capital stock, and surplus, no additional unsecured indebtedness may be issued.

Should the proposed charter amendments be approved by this Commission, the applicant-declarant proposes to submit the proposed charter amendments to its stockholders for their approval. The application-declaration states that the approval of two-thirds of the outstanding preferred stock is necessary to adopt the proposed amendments. In order to facilitate the acquisition of proxies of the holders of the preferred stock, applicant-declarant proposes to employ the firm of Georgeson and Company. The compensation expected to be paid in connection with such solicitation is estimated at not to exceed \$3,000.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application-declaration and that said application-declaration shall not be granted or permitted to become effective except pursuant to a further order of this Commission;

It is ordered, That a hearing on said application-declaration pursuant to the applicable provisions of the act and the rules of the Commission be held on January 22, 1948 at 10:00 a. m., e. s. t., at the offices of the Commission, 425 Second Street NW., Washington, D. C. On such date the hearing room clerk will advise as to the room in which such hearing will be held. Any persons desiring to be heard or otherwise wishing to participate in this proceeding shall file with the Secretary of the Commission on or before January 20, 1948 a request

relative thereto as provided by Rule XVII of the Commission's rules of practice.

It is further ordered, That Harold B. Teegarden or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer or officers so designated to preside at such hearing are hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division having advised the Commission that it has made a preliminary examination of the application-declaration and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

1. Whether the proposed charter amendments, particularly the proposal with respect to relaxation of the unsecured indebtedness provision meet the applicable standards of the act, particularly section 7 thereof.

2. Whether the terms and conditions with respect to the proposed solicitation meet the applicable standards of the act and the rules thereunder.

3. Whether the fees proposed to be paid including the fee of any organization for solicitation of proxies are reasonable.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve a copy of this order by registered mail upon the applicant-declarant herein and that notice of said hearing shall be given to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935 and by publication of this order in the FEDERAL REGISTER.
